

REMARKS

The purpose of this amendment is to cross-reference a related application, cancel the claims in the parent application and add new claims to features that were pending in the previous application. The new claims are believed to particularly point out and distinctly claim novel features of the invention and should be allowable.

Examination and allowance of this application is earnestly solicited.

Respectfully submitted,

David O'Reilly
Attorney for Applicant
Registration No. 26,102

Date: February 2, 2004
